

# ***EARLY INTERVENTION PROGRAMS***

*Early intervention programs provide comprehensive, integrated services, utilizing a family-centered approach to facilitate the developmental progress of eligible children. The Massachusetts Department of Public Health has the responsibility for administering and overseeing the statewide system of early intervention services, for certifying programs and coordinating funding sources, and for carrying out monitoring and technical assistance activities. Each early intervention program is certified to provide services for a specified group of cities and towns, called a Catchment Area*

**This year, we have listed the Early Intervention programs by general geographic areas: Greater Boston, Metropolitan Boston, Southeast Region, Northeast Region, Central Region, and Western Region. Within each section, the listings are grouped by Catchment Area.**

**For information about the Early Intervention system of services, visit the Early Intervention Parent Leadership Project website: [www.eiplp.org](http://www.eiplp.org) .**
