## Family TIES Services and Programs

[www.massfamilyties.org](http://www.massfamilyties.org)

**Family TIES of Massachusetts** is driven and staffed by parents of children with special needs, we offer a unique type of emotional and practical support to families with similar life experiences. We provide information and training for families of children with special health needs or disability and their professional partners. We are a primary source for information about Early Intervention (EI) and maintain a complete listing of EI programs in MA. Services are available in multiple languages.

### Information and Referral

- Call the toll-free, state-wide phone line 800-905-8437 or contact a Parent Regional Coordinator who has life experience parenting a child with a special health need.
- Information on a wide variety of topics, including community resources and services, programs for children and youth with special health needs, public benefits, and support groups.

### Early Intervention

- When you call, Family TIES will share contact information to the Early Intervention (EI) program(s) in your area.
- Regional Coordinators will send you a packet of information explaining Early Intervention services.
- Contact information for EI referrals is available on our website and by phone.
- Family TIES can help families and professionals who need more assistance

### Workshops and Trainings

- Check out our website for a list of trainings and call us to schedule a virtual presentation for your group, school, or organization.

### Parent-to-Parent Program (P2P) – Alliance member of P2PUSA

- Parent-to-parent matching calls connect parents who have a child with a disability, chronic illness, or special health needs to a Support Parent with similar lived experience who can provide emotional support and practical suggestions. Parents can request a match online or call 800-905-8437.

### Volunteer Opportunities

#### Family Advisor Program

- *Share Your Voice!* This program offers families the chance to advise and partner with the Department of Public Health and join in leadership activities across the Commonwealth.
- On-line sign-up forms for the Family TIES Advisors Program are available in English, Spanish, and Portuguese on our website.

#### Support Parents for Parent-to-Parent

- The success of our Parent-to-Parent programs comes from our volunteer Support Parents. Share your experience. Participate in a *Listening & Learning* training to build your skills and become a Support Parent.

**Contact a Regional Coordinator to find out more about volunteer opportunities!**

Family TIES of Massachusetts, a project of the Federation for Children with Special Needs, is funded by the Division of Early Intervention at the MA Department of Public Health, and works in collaboration with the Bureau of Family Health & Nutrition, and Division for Children and Youth with Special Health Needs.

# Introduction to the 2022 Edition of the Directory of Resources for Families of Children and Youth with Special Needs

This 2022 is the 25th edition of the Directory of Resources.\* We did a thorough review of resources due to COVID and encourage you to contact the resources yourself as situations may have changed during these unprecedented times.

Family TIES of Massachusetts answers more than 10,000 calls a year from parents and professionals seeking information and services for children and youth with special needs. As parents of children with complex medical needs and other disabilities, we know finding information, services and support can be difficult and emotionally challenging. We hope the information in this directory makes the task easier for families.

The Directory is published annually. A searchable and downloadable version of the directory is available on our website, [www.massfamilyties.org](http://www.massfamilyties.org). The public is welcome to print and share single or multiple pages of the directory.

We love finding new resources and ways to support families. We continue to receive kind comments from people who see this book as an important resource. Thank you and please continue to call us with your suggestions and new resources. Or, use the directory *Resource Entry Form* at the back of the book. Email the completed form to [info@fcsn.org](mailto:info@fcsn.org) or fax to 617-241-0330.

Many people helped develop the directory. We thank you all including our funding agency, the Massachusetts Department of Public Health, for continuing to support the work of Family TIES on behalf of families of children and youth with special health needs.

## TIPS FOR USING THE DIRECTORY

The directory is a great starting point to look for information and resources! Resources are organized into two sections: **Resources by Topic** and **A-Z Resources**. In the **A-Z Resources** section of the book, each resource has a brief description of the available supports, contact information, the regions it serves, and a category code. All resources are assigned to one or more categories. The categories refer to the topic of the information or type of service provided.

When you know the name of the agency, organization, or program, look for it in the A-Z Resources section of the book. If you find the resource you were looking for, be sure to visit their website for specific or additional information. The information in this directory is current through January 2020. The Resources by Topic section is helpful when you know the kind of resource or program you need. The resources in the main categories are listed by the regions served:

National – Statewide – Boston – Central – Metrowest – Northeast – Southeast – West

The *Community Support and Inclusion* category and *Specific Conditions and Disabilities* category are broad. In these main categories, the resources are sorted by specific topics and region. The following page has a list of the topics included in these categories.

Although there are many resources listed in this directory, we could not possibly list all of the resources available. If you do not find what you need, please call us! Your Regional Coordinator may know about resources in your community.

**Early Intervention Partnerships Program (EIPP)**

*The Early Intervention Partnerships Program (EIPP) within the Division for Pregnancy, Infancy and Early Childhood (PIE) is a home visiting program that serves women with identified maternal or infant risk factors across the state. The purpose of EIPP is early identification of maternal and infant risk; and linkage of families to services to prevent or reduce poor health and/or developmental outcomes. EIPP is coordinated by an existing Early Intervention Program. There are seven sites in Massachusetts that serve families during the perinatal period. They offer the necessary supports to promote maternal health and optimal post-pregnancy outcomes as well as a focus on infant growth and development through the first year of life.*

### Regional Consultation Program (RCP)

*The Regional Consultation Programs provide consultation, training and/or direct services to young children with complex medical/health needs, enrolled in EI or other community programs and their families. RCP's primary goals are to:*

- *Provide consultation to children and families and community programs where young children typically access services*
- *Assist EI programs to meet the complex medical needs of eligible children*
- *Build community capacity by expanding skills and knowledge of community providers to ensure the inclusion of young children with complex care requirements, and RCP services are provided regionally in conjunction with early intervention programs*

*Referrals to RCPs are made through EI programs. Ask your service coordinator for more information.*

### Growth and Nutrition Program

*The Growth and Nutrition Program (GNP) under the Nutrition Division in the Bureau of Family Health & Nutrition (BFHN) is a 30 year old Program established by the Massachusetts Legislature to address the problem of under-nutrition among young children in the Commonwealth. There are many causes of growth deficiency including medical, developmental, nutritional, and psychological reasons and the most effective treatment involves a multidisciplinary team of experts. All Massachusetts children from birth to six years of age with declining growth can be referred for evaluation and treatment by their primary care providers to these clinics, regardless of the family's income.*
